Grey lightweight floor spreader

 0.7 kg / 1.5 lbs

Model No: 3363-3
Black lightweight floor spreader

 0.7 kg / 1.5 lbs

Model No: 3367-3
Heavy duty flexible floor spreader

 1.1 kg / 2.4 lbs

Model No: 3379-3
Baby legs spreader

 0.5 kg / 1.1 lbs

Spread-Loc Mid-Level Spreader

When the terrain is rough or uneven a mid-level spreader becomes the safest option to ensure stability and camera control in any situation.

The Spread-Loc mid-level spreader ensures fast and simple set-up and infinitely adjustable positioning in all applications. Its revolutionary design

incorporates a unique deployment system and a number of innovative safety features to prevent accidental damage to both spreader and tripod. The Spread-Loc easily achieves multi-level positioning or an incredibly small footprint so in the toughest terrain or the tightest of spaces you can be sure of reliable camera support that gives great control.

Specification
Model No: 3781-3
Spread-Loc and carpet feet

 0.95 kg / 2.1 lbs

Extended Arm Radius: 500 mm / 19.7 "
Closed Length: 377 mm / 25.5 "
Tripod Footprint: Infinitely variable to maximum arm extension
Compatibility: Pozi-Loc tripods [excluding baby legs]

Key to Diagrams

1. One of the Spread-Loc arms incorporates a dislocation feature, ensuring that the spreader will survive excess force and eliminating accidental damage.

2. Controlled by a central lock knob, the Spread-Loc arms are geared to move together. A single turn controls all three legs for fast repositioning. In addition a unique ratchet mechanism provides an audible warning that the spreader is locked, but still allows the system to be closed for rapid repositioning.

3. Individually extendable arms mean that Spread-Loc achieves maximum stability in the most unusual or restricted spaces.

Vinten spreaders provide **stability** and **camera control** in any situation.
